*Note: If a player had won multiple awards as a rookie or in Years 2-5, he wasn't able to double- or triple-dip; he received only the points earned for his highest accolade. For example, a rookie who won Rookie of the Year, was named an All-Pro and made the Pro Bowl with 16 starts on the season would earn 26 points (10 points from awards and 16 points from starts). For Years 2-5, a player could earn a maximum of 13 points per season (5 points from awards and 8 points from starts).*
