## 园逆 NFL DRAFT LESSON

## Key Skills:

Decision making, problem solving, team work, communication, listening, negotiation, leadership, time management, data analysis, research, evaluation, Mathematics, Geography.

## Objectives:

To work as a team to pick the strongest group of players for your NFL team.

## Resources and preparation:

- Computer and projector for showing draft video.
- Print out enough draft cards and stats sheets for each team.
- Paper and pens for making notes.

## Schools NFL Draft Rules

- Show the class the NFL guide to the draft so they understand how the it works.
https://www.youtube.com/watch?v=teubC6pM858
- Split the class into groups of 5 or 6 .
- Each group will have an NFL draft card along with a player stats sheet and a sheet to write down their player choices for each position. Each team will need to pick which NFL team they would like to represent and write this onto their draft card.
- Groups will have 5 minutes to assess their teams needs and decide which players they want to select and write these down on their player choices sheet. Their team's needs are shown by grey helmets next to the positions they need to draft a player for.
- The order of each team's selection will be decided by drawing numbers out of a hat. Each group will then take turns to select a player off the stats sheet. Once a player has been selected they cannot be selected again by another team. The team will have 30 seconds to make their choice, if they fail to select an available player in this time they will miss their turn for that round. Unlike in the NFL draft, players and picks cannot be traded between teams. Teams should make sure to cross off the players which have been selected by other teams and can no longer be chosen.
- Teams continue to take turns to select players for 8 rounds until all their team's needs are filled.
- At the end of the game the teacher will read out the points for each player that has been selected and each team can then add up their points. The team with the most points has selected the strongest team and wins the game. Points are allocated based on the overall ability of the player.
